

QUINN LONG SLEEVE CROP TOP
by QUIN

This is where the New Curators note is going to be.

There will be some writing about the piece, what it would look good with, and where you can wear it. (Basically, information which lends itself to making the piece desirable.) The material infromation and the way it fts should be in the first paragraph. This is because the person might just want to buy it, and not hunt for the pertinent info.
